## PLANS DISCUSSED FOR COMING YEAR

THE BOARD OF SUPERVISORS OF  
THE FREE KINDERGARTEN  
MEET AND DISCUSS BUSINESS.

The Board of Supervisors of the Free Kindergarten and Children's Aid Society met yesterday afternoon in the rooms of the Y. W. C. A. Considerable work was accomplished by the society.

Many reports were read on the work accomplished during the past year and it was noted that the progress of the school and society had been very favorable. Plans were discussed for the coming year and some changes were suggested, though none of any importance were adopted.

It was decided to assist the work of the Social Settlement in Palama which is being carried on by Mr. Rath. The Board of Supervisors will assist with money and in other ways.

The resignation of Mrs. Thompson who has been the Hygienic Director of the Free Kindergarten was accepted. She is to go abroad. Miss Murray, who for the past year has been at Kamehameha School for Girls, will accept her place.

## DOLE DECIDES FOR THE VESSEL

THE MANGA REVA WINS THE  
LIBEL BROUGHT BY HER  
SAILOR.

United States Judge Dole gave a decision this morning in the case of Hugo Nordick against the Manga Reva a libel in which the plaintiff, a sailor, sought to compel the payment to him of the full rate of wages as agreed upon in the shipping articles. During his voyage here the libellant was deserted as steward and put at a lower grade of work at less pay, though he had signed as steward. The captain claimed that the reduction was justified and was a proper exercise of authority, and in this he is sustained by the judge.

ALBERT TOOK SUGAR YESTERDAY  
The bark Albert departed yesterday morning for San Francisco with a cargo of 1135 tons of sugar.

## SPECULATION OVER THE SONOMA'S DELAY

FAILURE OF OCEANIC LINER TO ARRIVE FROM SAN FRANCISCO, HAS CAUSE NO LITTLE WORRY AT THIS PLACE—SHE MAY HAVE A GREEN CREW IN THE FIRE ROOM—MAY BE MAKING REPAIRS.

The failure of the S. S. Sonoma to reach this port from San Francisco has caused the utmost surprise and in some quarters, not a little apprehension is felt.

The vessel left San Francisco May 31 any where from four to five hours behind time. She could not have been more than five hours behind time at the very latest, for the Marine Exchange cable was dated at 4:52 p. m. and the vessel must have sailed earlier than that hour.

Several reasons for the delay of the vessel are given. She ought under ordinary circumstances to have arrived here by noon yesterday. As she did not put in an appearance considerable conjecturing was the result.

One explanation for her delay is the fact that she may have had to leave San Francisco with a green crew in the fire room. The green crew could not keep the vessel properly stoked and, in consequence, she could not keep up the proper amount of steam to operate her on schedule time. It seems hardly likely, however, that a delay of over 24 hours would result from such cause. She may also have encountered heavy weather and this condition, coupled with a poor crew, might have helped to detain her.

On the other hand it was suggested that she might have had to stop during the voyage to make some repairs in the engine room. Owens the new chief engineer, was chief engineer of the Alameda which is an oil burner whereas the Sonoma is a coal burner. This is hardly likely to have made any difference with him in his handling of the engine department of the Sonoma.

It seems unnecessary to recount wild theories of collisions and accidents of that character. The most probable cause for the delay is the green crew and the possibility that she may have had to stop at sea in order to make repairs. She has a new captain this trip, either Captain Trask or Koughen. The vessel ought to be reported at any time.

## GOVERNOR GOES AFTER HAWAIIAN AMERICAN CO.

THINKS THAT TERRITORY SHOULD INSTITUTE ACTION TO RECOVER ON THE BONDS THAT THE COMPANY GAVE THAT IT WOULD COMPLETE INSANE ASYLUM CONTRACTS—AN OLD CONTROVERSY LIKELY TO BE REOPENED.

The government is preparing for another tussle with the Hawaiian American Engineering Company, over the asylum contract, and it promises to be a very lively tussle. Governor Carter said this morning that he thought the Territory ought to make the fight even if, as attorneys seem disposed to say, it loses. Carter proposes a suit to recover on the bonds which the company gave, that it would complete its contract by October 12 last. There were three bonds, aggregating \$13,115, with A. N. Campbell and J. W. Mason as the sureties. The trouble with the bonds appears to be that they are not of the right kind.

"I think it is a fight we should take up even if we lose," said the governor. "The courts may decide against us, but I do not believe in laying down before we have to. It will not be good policy for the government to submit unresisting to being treated in this way."

The difficulty in the way of recovering on the bonds is understood to be that in order to recover on bonds drawn as these are it is necessary to prove damages and this is something the Territory probably cannot do. "We can prove that the will of the people has not been carried out," said the governor. "We can show that the legislature desired to have a better asylum for our insane and that it made provision for new buildings, also that as a result of the failure to carry out this contract the new asylum has not been secured. But that does not show any actual financial loss and if it is held that we have to show such loss, we shall probably lose."

The asylum contract is one over which there has been a long and sensational controversy, including the Plinkham "uninvented machine" proposition as its chief cause. The contractors claimed that an impossible condition was imposed on them and declined to start work. Now it is the governor's plan to see if the company can't be forced to pay forfeit.

## CALIFORNIA GIRLS ARE VERY POPULAR

GIRLS MAKE A FINE IMPRESSION  
IN HONOLULU—THEY WILL  
VISIT HALEIWA.

"Honolulu is alright," stated one of the California girls this morning and when she said that she voiced the sentiment of the whole crowd. California girls seem to like Honolulu and it is rumored that they will have better success than did the Oregon girls in finding their life's happiness in the islands. If the crowd of young men that daily wends its way toward the Young Hotel is an criterion they will be forced to spend many sleepless nights in deciding upon the lucky one. There is always a bunch around and the girls have enough dates ahead to fill a ledger. The girls like Honolulu and they are not at all backward in saying so. Indeed it is difficult to get them to talk about anything else. They are so full of good things to say about Honolulu and its people.

And in turn Honolulu likes the California girls. It has been decided among the young men of the city that the girls could not be much better. They are witty, bright and not bad looking girls. Indeed certain young men of the place have even declared that they were beautiful. Well, however that be, it is conceded that they are above the average. The girls are having a good time but they are not hilarious about it and in that lies their popularity.

On June 16 they will be taken to Haleiwa as guests of the Promotion Committee. They will stop at Ewa on the way down and Mr. Tenney will guide them about the plantation. Saturday evening at the hotel a ball will be given in their honor. On Sunday the people of Wahiawa are to take them to the large dam and also to the pineapple country. They will be royally entertained on the trip.

The girls expect to return to the coast on the next trip of the S. S. Alameda.

HELENE ARRIVED TODAY.

The steamer Helene arrived this morning from a special trip to Kohala-kele and Kawaihae. She brought 12,000 sacks of sugar from Paauilo plantation. She also brought cattle from Kawaihae.

## TESTA SAYS HE WAS MISQUOTED

DENIES SAYING SOME OF THE  
THINGS HE IS CREDITED WITH  
SAYING AT THE MEETING.

EDITOR HAWAIIAN STAR:—Permit me to state that your yesterday's report of the meeting of the Hawaiian Congregation is far from being correct, and in justice to myself and others of my conferees, I surely must send any impeachment therein made and thereby inferred. Much of what has been hashed in for your benefit, you are at perfect liberty to take it, yet the facts does not bear them out, as the proceedings were almost entirely conducted in Hawaiian and you surely could not have been made to understand as you had given out.

Speaking for myself, you have imputed to me that I said "Don't give in to the haoles," which is entirely a fabrication, pure and simple. I made no derogatory allusions to the haoles, as I believe them to be our friends as far as the Church is concerned.

Another point I wish to mention, and thereby emphatically deny, that I ever at any time during my speaking at that meeting said "several uncomplimentary things about the different newspapers of the town." There was no occasion for it and it would be very far from me to do so.

And, further, I fail to find comfort in your heading that the "Hawaiian Congregation support the Bishop." If you can twist the reception of the Bishop's reply to his petitioners to mean a support of his action, you are entirely welcome to it. You should be parliamentary enough to know the difference.

There was one statement made by Mr. Boyd that the Bishop told them in committee that if the Hawaiian Congregation could fill the Cathedral, he (the Bishop) would ask the Haole Congregation to move out and build a church of their own. This information must be a good comfort to others, yet, speaking for myself and, I hope, voicing the sentiment of the entire Hawaiian congregation on the matter, we do not hope nor desire to see it occur, but we do desire that both Congregations be long permitted to grow side by side in harmony and brotherhood.

Honolulu, June 7, 1906.

## THE FIRST TROPHY TO LOS ANGELES

WOOD RECEIVED A CABLEGRAM  
FROM SHREVE & CO. SAYING  
THEY HAD FORWARDED IT.

"SAN FRANCISCO, June 6.—Wood, Promotion Committee, Honolulu. Cup forwarded today to Los Angeles for exhibition in unfinished condition as saved from fire. See letter."

"SHREVE & CO."  
The above cablegram was received by Secretary Wood of the Promotion Committee last evening from Shreve & Co. who were making the solid silver trophy which is to be the first prize in the coming ocean yacht race.

Some time ago Secretary Wood wrote to Shreve & Co. and asked them to forward the cup which they were designing to Los Angeles even in an unfinished condition for exhibition with the calash trophy. From the above cablegram they have evidently complied with his request.

Secretary Wood is of the opinion that the unfinished cup will make even a more attractive exhibit than if it were finished. It will show to the public that even the great disaster in San Francisco could not do away with the race.

Secretary Wood is elated over the notice which Hawaii is getting out of the race on the mainland. He has a desk full of clippings now from eastern papers. Papers that never before had mentioned Hawaii are publishing columns of stuff relating to the yacht race and the reception that is planned for the yachtsmen when they arrive from the coast. He is of the opinion that the race is doing more for Hawaii than anything that has been tried so far. The yacht race will hardly be through when Joe Cohen will happen along with his band and then people will begin to pack their grips to see Hawaii, the land of sport that is sport and of music.

## MAIL TO MAINLAND TOMORROW.

Mail can be sent to San Francisco tomorrow afternoon by the steamer Claudine which will depart at 5 p. m. She will catch the S. S. Nebraskan at Kahului Saturday morning and the Nebraskan will depart on Saturday for San Francisco. The transport Sheridan is expected here Saturday or Sunday from Manila and Nagasaki en route to San Francisco. She will probably go up to San Francisco in seven days, so if she arrives here Saturday, she will probably reach San Francisco ahead of the Nebraskan.

## POLICE TAKING UP BICYCLES.

The police got busy yesterday confiscating bicycles that did not bear the tax office receipt stamp. A large number of wheels were gathered in by the police. The tax officials have sought this assistance to enable them to collect delinquent taxes on bicycles.

## WORK BEGUN ON KILAUEA SLIP.

Work on the new Kilauea slip was begun this morning by Lord & Belsor, the contractors. The dredger Governor was put to work digging up the black sand and makal of the old Pacific Mail wharf retaining wall.

## WHEN THE WATER IS SHUT OFF

MANOA VALLEY RESIDENT PRO-TESTS AGAINST TIDE HOURS CHOSEN.

EDITOR STAR: Residents of College Hills and Manoa Valley have good reason to be and are much provoked over the continued shutting off of water without advance notice. They appreciate that alterations and repairs are occasionally necessary and would have no complaint if given notice so that water could be stored for immediate use. The Superintendent of Water Works or whoever is responsible seems to choose the hours for shutting off when running water is most necessary to the householders, i. e. 6:30 to 9 a. m. and 3:30 to 6:30 p. m. thus depriving one of his morning bath and preventing the washing of dishes and etc.

Since the good trustees of Oahu College discontinued the supply of water from its private water system for the reason that it did not pay dividends, College Hills people have had to put up with coffee colored water, which, it is safe to say would be immediately condemned by any board of health on the mainland. Although this water is from Nuanuan it is much inferior by comparison to that supplied to town people, possibly due to the system of piping by which it is brought down at immense pressure and suddenly turned at a sharp angle, thus continually stirring up the sediment. The water works department is sure to hear from Manoa people today.

A MANOA RESIDENT.  
Honolulu, June 7, 1906.

## HILONIAN EXPECTED TOMORROW

The S. S. Hilonian is likely to arrive here tomorrow from Seattle. She left Seattle May 30 for Honolulu.

Fine Job Printing, Star Office.
